

California Energy Commission  
**BUSINESS MEETING AGENDA**

**April 8, 2015**

1516 Ninth Street  
Art Rosenfeld Hearing Room – First Floor  
Sacramento, California 95814

**10 a.m.**

(Wheelchair Accessible)

Due to the continuing severe drought conditions, the Governor issued an Executive Order on April 1, 2015, directing the Energy Commission to, among other things, adopt emergency regulations establishing efficiency standards for water appliances. The Energy Commission will vote to consider whether there exists a need for immediate action on the following item and, if so, whether the need to take this immediate action came to the attention of the Energy Commission subsequent to the agenda for this meeting being posted. (Gov. Code, § 11125.3(a)(2).)

If the Commission determines that such a need exists, it will consider adoption of:

29. **TOILET, URINAL, AND FAUCET WATER EFFICIENCY REGULATION.** Proposed resolution adopting water efficiency regulations for toilets, urinals, and faucets. The proposed regulations implement Executive Order B-29-15 directing the Commission to "adopt emergency regulations establishing standards that improve the efficiency of water appliances, including toilets, urinals, and faucets." The proposed adoption would, as of January 1, 2016, prohibit the sale or offer for sale of covered toilets, urinals, and faucets that do not meet minimum water efficiency requirements, and would have the effect of prohibiting the installation of such fixtures.
